#### **1. Federal Reserve (F\*R\*) responds to NORFED**

In a major new article, the reporter actually went to the F\*R\* and asked them what they thought about NORFED. F\*R\*'s reply was actually printed as a sidebar to the article in the *Missoulian* newspaper from Montana. The article is a little over a page and the results of great work by dedicated RCs including Dick Wells, Lynn Farrenkopf and Mike Heit! You can read the article at: <http://www.libertydollar.org/TheMissoulian.htm>. And the F\*R\* reply at: <http://www.libertydollar.org/So%20Be%20It.htm>. (This article can be viewed on the News & Updates within this website at <http://www.libertydollar.org/news.htm>)

#### **2. NORFED replies to the F\*R\***

NORFED reply is enclosed at the bottom in Appendix A, of this email. We would welcome your comments, edits and suggestions. Please keep them brief or at least read NO. 12 about my emails. Other than that we welcome your emails...

#### **3. New Brochure due out within 30 days...**

YES! The new non-Y2K brochure is just about finished. It is at the printers and will be available soon. NORFED will send 10 Brochures to all RCs at no cost. We think you will be very impressed and it will work even better.

#### **4. New Gold Certificate to be issued shortly**

YES! We are pulling back the veil of secrecy to invite you to a wonderful event. Within the next 30 days, NORFED will issue a \$500.00 Gold Certificate. It will be backed by an ounce of .9999 fine gold. In addition to the Gold Certificates, individual Gold Libertys will also be available. Both will be steeply discounted from the \$500 Face Value (FV) and market driven on a daily basis to make them market competitive. YES, we can imagine there will be a MILLION questions... and before you flood us... please remember, we continue to be a bit short handed and maxed with the new Gold Certificate, new brochure, etc... A new ad will read: "Now you can get \$500 for only \$340 – and it is 100% backed by Gold!" If you are interested, please call Sarah and lock in a truly unique opportunity, pricing structure will include and discount\$ to RCs and the first 100 will be special Proof set with Certificates and Gold Liberty with same serial number!

#### **5. *Forbes* Magazine article is in the works...**

As we mentioned in our announcement for stories about how you have used the new currency and that a new "major" article was in the works...well it appears to be *Forbes*. We have been interviewed and you may be too as it is custom for reporters to call around and speak to the RC s and get their opinion, feedback, etc...So look sharp, or more importantly sound sharp...we're growing up to truly bring about a fundamental change to our country's currency.

#### **6. Important Concept defined at IntellectualCapital.com:**

When you have a moment, please read: *The Demise of Government Monopoly of Money*. It is very well done, only five pages and represents a blue print for the future of money and NORFED. Check it out at: <http://www.intellectualcapital.com/issues/Issue181/item1798.asp> Then go to the home page and check out Intellectual Capital...a very heady group...

#### **7. Big Freedom Rally in Orange, California**

Probably the biggest Freedom Rally of the year will be held at the Atrium Hotel in Irvine, California from 9:00 to 5:00 with an optional banquet with Rep. Ron Paul as the Keynote speaker on Saturday April 1 (NORFED's 1-1/2 year anniversary) and from 9:00 to 4:00 on Sunday. All this is being organized by Peymon Mottahedeh the President of the FREEDOM LAW SCHOOL. As you might expect, Peymon is a Redemption Center and I will be speaking along with Ed Griffin and practically every other major "Freedom Fighter". Please plan to attend if at all possible. Check it out at <http://www.freedomlaw.org/home-2.htm>. OH and the best part is the price – only \$35/pp and \$50 for a couple and everyone under 21 is free! Come and join the Party! Hope to see you there!

#### **8. Media Bypass open its doors to New Marketing:**

In a major effort, Jim Thomas, publisher, RC and a great friend to NORFED has created a new marketing plan to increase circulation of MEDIA BYPASS. It only costs \$10 and promises to return a sizable amount of \$\$\$ through a MLM payout. Check it out at [www.4bypass.com](http://www.4bypass.com) or call: 800.4BYPASS

#### **9. NORFED gets its own mall and invites you too do the same:**

Now I must confess, I have never, ever been a MLM. But these guys down here in Florida are awfully good and have gifted NORFED with its own Internet Mall! Given the fabulous growth of e-commerce and the very real likelihood that we will all be doing an increasingly larger amount of our shopping on the net...this Mall idea is very HOT!!! I encourage everyone to check it out. For \$400 you get your own Internet Mall site with over 600 brand name stores where you and anyone else can shop and get a discount. YES you actually buy cheaper at places like Penny's on your own Mall than you would at their site! Plus you profit from all the purchases on your mall and of course there is the down stream that will wrack up \$\$\$ too. Probably the best part as I understand it is that the payout is the best and the fairest of any MLM available. No bull here, just a very unique time to be ahead of the curve. Check it out at [www.km.net](http://www.km.net) then click on Business Presentation (<http://www.km.net/pres.html>) or call Pete Marceaux at 954.438.3501 or Jeff Pollard at 561.687.3380. Both are fellow RCs and major players involved with

KM.NET. One last note, every purchase or additional mall will profit NORFED and you can check it out at: [www.shopatnorfed.km.net](http://www.shopatnorfed.km.net). Happy shopping.

#### **10. Thanks for the radio - looking for more**

Many thanks for all the help and suggestions you have forwarded to get me on the radio. It is a tremendous help to NORFED. So please keep it up. And if you hear a good talk radio, just give them a call and suggest that they interview me and I can mention your RC as part of the show...

#### **11. Arizona, California, Oregon and Washington Tour next**

That's right. I am headed out West – where it is the Best! If you want to see me, just let me know. I prefer a group – the larger the better, but if you are a RC I will do my best to meet with you. And yes, a promise of a home cooked meal, a cold beer and a place to stay with like minded RCs for the night is always welcome too. So let me hear from you RCs out West...

#### **12. Good sample letter by a fellow RC**

If you don't have the time to write that special introductory letter to your friends and family about NORFED and the New American Dollar, then check out the letter in Appendix B. It was done by Joe Gibbs, a RC. You can use it as is or cut and paste with your own messages and style. Just another way to make it easier to take the message out to a larger group. Remember we need about 20 million RCs to bring about: **NO FED – JUST NORFED!**

#### **13. Florida has been great, my email problem, etc**

And finally, Florida has been wonderful. Lots of neat, dedicated Americans down here. And lets face it...it is warm which is important for this Hawaiian boy. My sincere thanks for all the folks I have met and their Aloha spirit. They have greatly expanded the list of places who can claim, "Bernard slept here." My email continues to be a major problem...with hundreds of emails a day, I am MAXED. Please don't think of me as being unfriendly if I don't reply to your email...there is no way for me to do that and still develop the Gold Certificate program, new Brochure, appear on radio and still get out and see the RCs...so if you really need me to reply: Please say so on the subject line...Thanks for being understanding.

### **APPENDIX A: NORFED's replies back to the F\*R\*:**

#### **NORFED REPLIES TO:**

#### **"WHAT'S BROKE?" WITH THE FEDERAL RESERVE**

In a recent article in the *Missoulian*, Mr. Art Rolnick, the director of research for the Federal Reserve Bank of Minneapolis points out that "The economy is incredibly productive. There's low inflation. The unemployment rate is the lowest in 30 years." And concludes with an interesting question, "What's broke?"

Well, Mr. Rolnick, NORFED, hundreds of Redemption Centers, and thousands of users of the New American Dollar wish to point out that the Federal Reserve (F\*R\*) broke God's Law and the U S Constitution. Please consider these points:

1 . LAW

Lying for a profit is breaking the Law. It is codified as fraud in all other industries except for Banking, where it is legalized as "orthodox economics". F\*R\* operates under false pretenses and has from its very conception. Even its name was chosen to deceive a gullible and miss-educated people. The F\*R\* is a lie and a fraud on the American people.

## 2. TRUTH

The F\*R\* lies when it says it fights inflation. The F\*R\* is a classic example of the Hegelian Process. The only cause for inflation is their manipulation of the country's money. If F\*R\* didn't create the problem, there wouldn't be a problem. The common man can and does manage its affairs in a free market.

## 3. VALUE

The F\*R\*Notes don't even provide a reliable store of value – one of the most essential services of any money. Since 1913 when the F\*R\* was legalized by Congress, the US dollar has lost 98% of its value. The 1913 dollar is now only worth two cents. That 98% was stolen. And stealing, regardless of its size, is breaking the law.

## 4. FREEDOM

It was unconstitutional for the government to break their obligation to the people and legalize the fraudulent banking empire in return for a limitless supply of money to fund its own anti-people agenda. It is immoral for the government to enslave the American people with perpetual debt.

## 5. PEACE

The F\*R\* breaks the peace by finances the government's wars while its own policies even leads to war. The seed of breaking the peace is created when the F\*R\* issues fiat money. A currency based on value i.e. gold and silver is a deterrent to war. Fiat currency acts just the opposite.

## 6. DISCIPLINE

F\*R\* breaks the discipline of an absolute (physical) standard of value, and destroys the monetary relationship to man's value system. Gold brings order to the financial system just as guns bring order to the social system. Without gold, there is no check and balance on the government, and its ability to buy influence for its own unconstitutional agenda.

## 7. TIME

The most disastrous break occurs over time. Inflation from the fiat money steals the purchasing power day after day, every day. And the only cause for this inflation, this thief, is the F\*R\*'s legal yet immoral actions. Actions that are especially severe for elderly people who are defrauded of their savings and die in poverty. Lying for a profit is breaking the Law.

## 8. HISTORY

The fatal consequences of fiat money are universal in history. Every time fiat currency has been used, it has led to open lawlessness or tyranny. History is very clear and undeniable on this point, fiat currency empowers the issuer at the cost of the common man's freedom.

In an unholy alliance, the owners of the international banks have simply bought control of the US Government with a limitless supply of "money" for limitless profits. Currently the F\*R\* and its fractional reserve banking system is a legal yet immoral entity that is permitted to masquerade as a government agency and operate fraudulently by the state. And yes, although all is well with the economy today, it will not be tomorrow when the F\*R\* wrings out inflation and the American people will have hell to pay. Yes Mr. Rolnick, it will be interesting to see what the public think.

NORFED prefers to Trust in God, and gold and history and support the common man's eternal quest to be free. While no currency truly backed by a precious metal has ever failed, fiat legal tender currency has never succeed except at the cost of the common man. For those of you who conspire to enslave us with perpetual debt, we ask you to consider these eight points very carefully and protect yourself with some New American Dollars.

Thank you Mr. Rolrick for your remarks and the Federal Reserve's reaction of "So be it."

"So be it", indeed Mr. Rolrick.

**APPENDIX B:** An introductory letter by Joe Gibbs, a fellow RC. APPENDIX B: An introductory letter by Joe Gibbs, a fellow RC.

Dear valued friend and fellow concerned American,

Yes, I did say concerned American. If you are like me you have many concerns, perhaps even to the point of worrying about things that we don't think we can possibly do anything about. Most of our concerns have to do with the future well being of our families, our children, grand-children, and the direction of our country. We have concerns in the area of politics, too much government control over our lives, as well as issues of morality and religion. I believe you are a responsible individual who would willingly do anything that you could to make the world a better place. We are often so overwhelmed with the things that need attention that we can't sort through everything in order to see what we can do that would make a difference. After reading the enclosed information I hope you will be as impressed as I am that here is something that each of us can do with a minimum of effort, time, and with zero expense.

Most of our concerns and much of what plagues America is related to money and its lack of value. When you and I are paid for the work that we do, we are mostly paid with money that is not backed by any value. It is government paper money, which has no claim to value, and its purchasing power constantly diminishes over the years.

My purpose for this letter is to acquaint you with the ALC - American Liberty Currency. The ALC is honest, lawful, constitutional, moral, predicated on statutory law. ALC is called the New American Dollar and is a silver backed currency being produced lawfully by NORFED (National Organization for the Repeal of the Federal Reserve Act and the Internal Revenue Code). For the first time in 87 years, the government dollar – those dreaded Federal Reserve Notes (FRN) - now has competition. Perhaps you aren't aware, but FRNs are issued by the Federal Reserve – a private corporation that masquerades as being a federal agency.

American Liberty Currency is 100% based and redeemable in silver. It is not just an alternative currency for the year 2000, but is a currency that can be used for the rest of our lives. Lawfully, the American Liberty Currency is a warehouse receipt. ALC scrupulously conforms to the constitution for the United States of America and the statute as defined in the Uniform Commercial Code, under UCC 7-202(2). ALC is a legally binding instrument that guarantees the "bearer", i.e. whoever is holding the currency, has the legal owner to the specified amount of silver. A warehouse receipt is simply your title or proof of ownership. That means you (the bearer) own the silver. You own the currency. "When the people own the money, they control the government. When the government owns the money, it controls the people." - NORFED Law. We do not have to be dependent on government issued paper instruments any more!

American Liberty Currency is available in three denominations, one's, five's, and ten dollar Silver Certificates (warehouse receipts). The \$10 one troy ounce .999 fine Silver Liberty are also available. There are no charges, fees or sales tax required to exchange FRNs for ALC Silver Certificates. Federal Reserve Notes are exchanged one-for-one for the New American Dollars at authorized redemption centers located throughout the country. I have become an authorized redemption center here in Webb City, Missouri. Currently there are over 300 nation wide. It would be great if there were over 100 million in our union.

When that occurs there will no longer be inflation, deflation, or control of our monetary system by the Federal Reserve Bank.

Please call us about this head-turning development to our country's currency. ALC Silver Certificates can be used with anyone who will accept them. This list is growing daily. ALC Silver Certificates brings convenience to using silver in everyday commerce. It provides an easy, safe and inexpensive way to move your money into a non-government controlled medium of exchange.

For those of us who are "concerned" about America and know the truth regarding our present direction we must invariably ask, "What can I do?" "How can any one individual really make a difference?" Now for the first time you have the opportunity to participate in the largest peace-time effort to right America. Here is what you can do, quietly, lawfully, and effectively in the privacy of your own home or business. "Simply stop using 'their' money. Start using the New American Dollar and take back America one dollar at a time." - the NORFED Solution.

Please join us in this effort to restore value to the American monetary system as mandated in the Constitution of the United States of America. The New American Dollar, provides a currency that will not be taxed away by inflation, that 'We The People' own ourselves and provides a better means to transact our business honestly.

If you wish to exchange a minimum of \$100 worth of American Liberty Currency, I would encourage you to become a Redemption Center and get the currency at a discount plus you can earn referral fees also. This should be particular interest if you are a business because you can use the ALC in your business just like those dreaded F\*R\* Notes. There are no registration fees, or any other fees, or government number required to open a Redemption Center. Simply call or fax us to receive more information about saving money on your currency exchange and receiving your referrals. If you will send us \$9 to cover postage and handling we will send you a detailed information packet which includes 18 pages of printed material, a cassette tape, and a 100 page book entitled, *Your Survival Currency*. You can also visit NORFED at [www.libertydollar.org](http://www.libertydollar.org), for an alarming amount of information, monthly audit, winning stories on how the currency has been used, etc. I have a few incidences that I have yet to get on their site.

If you will accept the NORFED challenge and do the work to make ALC a success in your community, you will be rewarded and the American way of liberty will flourish. Remember, it can happen just one dollar at a time. Please let us hear from you soon.

Respectfully,

And that is it. Congratulations if you made it this far. If you did, you get a \$1.00 Silver Certificate from Sarah. Just give her a call and tell her you made it all the way to the end of the NORFED REPORT VOL. 2 NO. 2.

Thanks again for all your support and efforts to return American to value and take back our inalienable rights to freedom – one dollar at a time.
