

## **Peace Dollar Battles War Dollar**

**Liberty Dollar organization is pleased to announce the 2008 Peace Dollar to “Stop the War.” As if President Bush’s unpopular war does not have enough problems, the Peace Dollar appears to offer an attractive way for the antiwar forces to gain strategic ground and profit.**

**Liberty Dollar recently issued a “Presidential” Ron Paul Dollar in support of the Republican peace candidate. Now it asks peace seeking Americans to start using the Peace Dollar and stop using the US War Dollar, as it finances the Iraq War.**

**The 2008 Peace Dollar is not government money and cannot be used to fund the war in Iraq. It is good for peace and bad for war. The government uses their printing presses to make money out of thin air to finance their war by diluting every American’s purchasing power... hence higher gas and food prices.**

**Bernard von NotHaus says that by accepting and spending Peace Dollars peaceful people can force the government to "Stop the War" because the government will have less money to pay for it. He encourages peaceful people to use a Peace Dollar the next time they spend money and “Give peace a chance.”**

**The Peace Dollar is a legal functioning currency dedicated to stop the war. As a private voluntary barter currency it can be used anywhere it is accepted. It is “real money” minted in pure copper and silver and exchanges dollar-for-dollar with the US war dollar. It is dedicated to establishing peace and bringing our boys home. The \$10 Peace Dollar has a face value of ten “Liberty Dollars” and contains one-half ounce of pure .999 fine silver. The \$1 Copper Peace Dollar contains one ounce of pure copper.**

**If you don’t want war – don’t use the war money. Everyone is encouraged to show his or her contempt for the war and vote for peace with the Peace Dollar.**
