

Judge Judy discovers The Liberty Dollar

By Staff writer

The Idaho Observer

December 10, 2002

Bowie V. Ibarra, a Liberty Currency Redemption Center (RC), is one of the most outspoken and active RCs in Texas. Following is a brief update of his "arrest" while using a Silver Liberty as he often does, but usually without such bizarre consequences. Bowie's case could end up on national television in the court of Judge Judy.

Bowie Ibarra's report:

Some people might be aware of my recent (January) "arrest" for "passing counterfeit currency" at a local pool hall here in Austin. Long story short, a sheriff's deputy arrested me under accusations that I had been passing counterfeit currency. The case was open and shut, absolutely no wrong doing. I recently filed a small claims court action against the deputy for his part in this unfortunate misunderstanding.

Apparently, the producers of Judge Judy have discovered the case and want to settle it in their courtroom.

Though I have agreed to appear on the show, it is ultimately up to the deputy and his legal department whether or not they will have the "tes-ticular fortitude" to go on national TV over Liberty Currency.

I haven't heard back from Judge Judy. Regardless, their lawyer and I have a date here in Austin to settle this case and present NORFED as the legitimate currency that it is.
