

# Secret Service calls on Florida RC

By Staff writer  
The Idaho Observer  
January 15, 2003

On December 19, a Secret Service agent called Rory Leinen out of the blue. Well, maybe not really out of the blue. Rory is one of our most dedicated Redemption Centers (RCs) in Florida and has been having a lot of fun using Liberty Dollars. As Rory reports, when a West Palm Beach SS agent called him, he thought it was a joke, but the agent quickly explained that it was no joke—he really was a SS agent.

It seems that the local SS office had received two complaints in one day, so the agent tracked down Rory to discuss the matters. The agent was very polite, well informed about NORFED and the Liberty Dollar and explained that there was "no problem" with NORFED or American Liberty Currency developer Bernard vonNothaus. He even commented on how beautiful the Silver Liberty is.

Rory replied in his usual friendly nature and quickly volunteered to exchange the Silver Liberty for a \$ 10 Federal Reserve Note. In parting, the agent urged Rory not to misrepresent The Liberty Dollar as U.S. currency.

So, if you are actively using The Liberty Dollar, you may get a call from the Secret Service. Please remember that the Secret Service fielded hundreds of calls about the Liberty Dollar. They have always been very professional and truthful about our right to use our own money. The Secret Service is not the enemy. PLEASE be very polite and helpful if you are called, but KISS (keep it short and simple). And of course, don't misrepresent The Liberty Dollar and if you have an unhappy camper, please immediately offer to exchange Silver Libertys for FRNs and go about your business of returning America to value-one dollar at a time!

**PS:** If you are called by the SS or any government official regarding the Liberty Dollar. PLEASE report it to the NORFED office immediately. We need to monitor this activity as we negotiate our way towards our goals.
